INDEX.

VOL. CXLIII

Illustrations.

Names.

A

ABELL, Professor T. B., Stability of Floating Prismatic Bodies, 149
Aberdeen Water Supply, Old and New Reservoirs at Invercannie, 24 (*Supplement, January 7th*, 1927)
Acera, Elder Dempster Motor Liner, 8, 9
"Acro" A. G., New Process of Combustion for High-speed Heavy Oil Engines, 632
A.D.C. Aircraft, Ltd., "Cirrus" Mark II. 75–80 H.P. Engine, 35; "Nimbus," 300–330 H.P. Six-cylinder Engine, 35
Alcantara, R.M. Liner, Harland and Wolff, Ltd., 210, 211
Alexander, Dr. F. W., Models for Demonstrating Electrical Principles, 547
Allen-Liversidge, Ltd., Acetylene Breakdown Equipment, B.I.F. Supplement, vii
Allen, W. H., Sons and Co., Ltd., Balancing Gear, for a Four-cylinder 250 B.H.P. Oil Engine, 692
Allen, W. H., Sons and Co., Ltd., Bore-hole Pump, Model of, B.I.F. Supplement, vi, vii
Almeda, Blue Star Steam Passenger Liner, Cammell Laird and Co., Ltd., 22, 378, 379 (*Supplement, January 7th*, 1927)
American Great Northern Railway Electrification, 107
Anglo-French Submarine Telephone Cable, Siemens Brothers and Co., 336
Armstrong, Sir W. G., Whitworth Aircraft, Ltd., "Siskin" III. A, Single-seater Fighter, 37; "Argosy" Twenty-seater Three-engined Air Liner, 36, 37
Ashdown, A. J., Heteroptic Shutter, 82
Ashwell and Nesbit, Ltd., "Runwell" Rotary Pump, 694
Atkins, E. A., Drawing Steel Wire, 557
Avery, W. and T., Ltd., Dynamic Balancing Machine, 265
Avro "Avenger" Single-seater Scout, 35

B

BABCOCK and Wilcox, Ltd., Winch Equipment at Cardington, 288, 300
Bailey, Alex. D., High Steam Pressure and Temperature at Crawford-avenue Station, 635
Baird Televisor, 27
Baldwin-Westinghouse Single-phase Electric Locomotive, Great Northern Railway, America, 107
Barbara, Rotor Ship, 11, 12
Bartley Reservoir, 182, 186
Bauer-Wach Turbine Reciprocating Engine, 24
Baulino, Colonel Carlo, Continuous Fuel Indicator, 157
Beccles and St. Olaves, Swing Bridges Over the River Waveney, 176, 177
Belliss and Morcom, Ltd., Multi-jet Condenser Set, B.I.F. Supplement, vi
Berwick Bridge Over the Tweed 8 (*Supplement, January 7th*, 1927)
Birmingham Water Supply, Bartley Reservoir, 182, 186
Blackburn Aeroplane and Motor Company, Ltd., "Sprat" Two-seater "All-purpose" Training Machine, 37; "Iris" Triple-engined Reconnaissance Flying Boat, 36, 37
Blackstone and Co., Ltd., 4½ H.P. Air Compressor, 217; (Correction), 267
Blackstone and Co., Ltd., Vertical Oil Engine, Exhaust Valve Gear, B.I.F. Supplement, v
Blue Star—*see* Almeda
Bodmin Wireless Beam Transmitting Station, Machinery Hall, 26 (*Supplement, January 7th*, 1927)
Bolton, Thomas, and Sons, Ltd., Large High-conductivity Copper Castings, 611
Brighton—*see* Millars' Machinery Co., Ltd.
Brinjes and Goodwin Three-roller Mill, Helical Driving Gear, Spring Adjusting Gear, &c., 438
Bristol "Badminton" Single-seater Racing Machine, 35, 36; Bristol "Berkeley" Day Bomber, 34; Bristol "Boarhound" Two-seater Military Machine, 34
British Electric Transformer Company, Three-phase Transformer, 266
British Industries Fair, 217, 236, 264
British Thomson-Houston Company, Ltd., Direct-current Controller with Pivoted Contact Finger, also Unbreakable Resistance, 236, 237
British Thomson-Houston Company, Ltd., U Type Motors, Alternating and Direct-Current, Squirrel-cage and Slip-ring, Squirrel-cage Rotor, Brush Gear, &c., 266, 277
Buckton, Joshua, and Co., Ltd., Martin Balance Machine, Planing Machine, Testing Machines, B.I.F. Supplement, i, ii
Buenos Aires Great Southern Railway, Six-coupled Three-cylinder Engine, Vulcan Foundry Company, Ltd., 7
Bunau-Varilla System of Water Sterilisation, 234
Burrator Dam, Removing Masonry Prior to Raising, 52
Buxton, Safety in Mines Research Station, Near, 651, 652

C

CAMBRIDGE Instrument Company, Combined Indicating and Recording Set, 41; Dissolved Oxygen Apparatus, 14; Schering Galvanometer, 13; Surface Pyrometer, 41
Cammen, Leon, Centrifugal Casting of Bars, 574
Canadian-Pacific Liner Empress of Australia, Reconditioned, 649, 658
Canning, W., and Co., Ltd., Automatic Electro-plating Machine, 264, 265
Cardington Airship Shed and Mooring Tower, 230, 242, 258, 270, 288, 300; (Addendum), 586
Carlisle, Willow Holme Electric Power Station at, 573, 578
Carnarvon Castle, Motor Passenger Liner, Harland and Wolff, Ltd., 8, 9 (*Supplement, January 7th*, 1927)
Caversham Bridge Over the Thames, 7 (*Supplement, January 7th*, 1927)
Central Argentine Railway, Eight-coupled Cross-compound Engine, Beyer, Peacock and Co., Ltd., 6, 7
Chatwin, Thomas, Ltd., Automatic Screwing Machine, B.I.F. Supplement, v
Clan Macnaughton, Improvised Stern Frame, 22
Clayton and Shuttleworth, Ltd., 50 B.H.P. Cold-starting Heavy Oil Engine, Fuel Pump and Governor, 80
Clayton Wagons, Ltd., Light Steam Locomotive, 381
Cook, Professor G., Determination of the Efficiency of an Exhaust Gas Boiler, 403
Coursey, Philip R., and H. Andrews, Battery Eliminators, 412
Cowdray, Viscount (Portrait), 499
Crossley Brothers, Ltd., Hopper-cooled Oil Engine, 137
Crossley-Premier Oil Engine for Pumping Plant at Epsom Waterworks, 569
Crosthwaite Engineering and Furnace Company, Ltd., Self-cleaning Grate and Sprinkler Stoker, B.I.F. Supplement, vi

D

DALBY, Professor W. E., Energy Diagrams and Comparative Results, Marine Oil Engine Trials, 406, 420, 421
Danish Motor Train Ferry Korsor, 610
Davidson and Co., Ltd., Large Mine Fan for Durban Navigation Collieries, 548
Davies, C. E., Coilers for Cold Strip Rolling Mills, 92, 123
Delaware River Suspension Bridge, U.S.A., 202, 214, 231, 304, 305, 318, 345
Demoulin, Maurice, Modern Steam Engine and Internal Combustion Motors, 402, 430, 472, 486, 518
Deptford Power Station, Extensions at, 598, 604
Deutz 1000 B.H.P. Marine Oil Engine, 528, 544, 545
Dewrance, Sir John, Bronze Founding, 274
Dolores de Urquiza, Motor Train Ferry, A. and J. Inglis, Ltd., 9 (*Supplement, January 7th*, 1927)
Dominia, Cable-laying Steamer, Swan, Hunter and Wigham Richardson, Ltd., 22
Doxford Four-cylinder Opposed-piston Airless-injection Oil Engine, 10, 11
Drysdale and Co., Ltd., Submersible Pumps for Mersey Tunnel Works, 586
Dunsheath, Percy, 33,000-Volt Cables with Metal-sheathed Cores, 99, 100

E

EGUZON Hydro-electric Station and Dam on the River Creuse, 64, 66, 76
Electricars, Ltd., Elevating Platform Truck, 267
Electroflo Meters, Ltd., Motor-driven CO_2 Recorder, 239
Electromotors, Ltd., Motors for Operating Centrifugal Pumps for Mersey Channel Works, 586
Ellison, George, Cubicle Switchgear, 532
Elverson Oscilloscope, 72
Enghaveplads Automatic Sub-station in Copenhagen, 584
English Electric Company, Back-pressure Turbine, Coupled to Alternator, and Governor Gear, Machine Nozzle for Turbine, Rotor for Turbine, 46, 56
Epsom Waterworks, Oil Engine-Driven Pumping Plant at, 569
Esquimalt, Dry Dock at, 39 (*Supplement, January 7th*, 1927)
Eyles, A., Some Notes on Soldering and Welding Aluminium, 121
Eynsham, Beet Sugar Factory at, 431, 442

F

FENTON, Murray and Jackson, Beam Engine Built in 1838, 351
Ferranti, Ltd., High-voltage Outdoor Transformers, 496, 503
Forrester, R. Desmond, Quarrying Operations in a South American Mine, 594
Foster Instrument Company, Sparking Plug Pyrometer, 42
Foster, Wm., and Co., Ltd., Mechanical Tea Garden Cultivator, 468
Four-wheel Drive Lorry Company, Ltd., Tractor for Launching Life-boats, 531
Fowler, John and Co. (Leeds), Ltd., Powerful Steam Cultivating Machinery for Italy, 581
Fowler, John, and Co. (Leeds), Ltd., Small Narrow-gauge Locomotive, 7
Fox, Sir Francis (Portrait), 49
French Cruiser Duguay-Trouin, 3 (*Supplement, January 7th*, 1927)

G

GALLETTI'S Radio Beam Transmitter, H. Tinsley and Co., 12
General Electric Company, Drawing-office Lighting, 205
General Electric Company, "D.B. Minor" Double-pole Switch, 239
General Electric Company's Photo-electric Lamp Rating Machine and Arrangement, 40
G.E.C. Tungsten Wire Level, 40, 41
Gibbs, John, and Son, Ltd., Adjustable Cabin Ventilating Fitting, 422
Girardot Railway, Colombia, Kitson-Meyer Locomotive for, 360 (*Two-page Supplement, April 1st*, 1927)
Gladstone Dock—*see* Liverpool
Gloster Aircraft Company, Ltd., "Gambet" Single-seater Deck-landing Scout, 35, 37
Gough, H. J., Fatigue Cracks and Fractures in Armco Iron, Mild Steel, Aluminium, &c., 474, 475, 476
Great Western Railway, New Tender for "Castle" Class Engines, 4, 5
Grimsby and Skegness Wireless Beam Stations, 323
Guillet, Professor A., Vibrating-wire Stroboscope, 73

H

HACKBRIDGE Electric Construction Company, Tapping Switch, 238
Handley-Page, Ltd., "Hamlet" Five-seater Monoplane, "Hendon" Slotted-wing Torpedo Carrier, 16, 19 (*Supplement, January 7th*, 1927)
Hardy and Padmore, Ltd., Gravel Washer and Screener, 478
Harland and Wolff, Ltd., Royal Mail Liner Alcantara, 210, 211
Hartley, V. L., Mechanical Vibration Filters, 624
Harvey, William, The Continuous Nature of Decay in Dams, 568
Hawker Engineering Company, Ltd., "Danecock" Single-seater Fighter, 20; "Hornbill" 650 H.P. Single-seater Fighter, 16, 21 (*Supplement, January 7th*, 1927)
Hawthorn, R. and W., Leslie and Co., Ltd., Werkspoor Indicator Gear, 209
Heenan and Froude, Ltd., Electric Dynamometer, 265
Helvétie, Paddle-wheel Steamer, 676
Herbert, Edward G., Work-hardening Properties of Metals, 138, 156, 180
Heywood and Porteus, Ltd., Angle Bender, B.I.F. Supplement, iv
Highfield Electrical Company, Ltd., Electrical Control Gear of Milling Machine, 353, 354
Hind and Lund, Ltd., Paint-making Machinery, Ball Mill, Laboratory Ball Mill, 519, 520
Hindley, E. S., 75 B.H.P. Steam Engine for Export, 335
Holden and Brooke, Ltd., Ten-stage Centrifugal Feed Pump, 532; (Paragraph), 566
Holden and Hunt, Chain Bending and Chain Welding Machines, Fin Stripper, Testing and Calibrating Machine, B.I.F. Supplement, iii
Hollings and Guest, Ltd., Hand Bundling Press, 264; B.I.F. Supplement, iv
Horsted Keynes Pumping Station, 98, 102

I

IGRANIC Electric Company's Seven-valve Wireless Receiver, 74
Institution of Electrical Engineers, Summer Meeting, Visits, 654, 680, 686
Italy, Powerful Steam Cultivating Machinery for, 581

J

JAPANESE Cruiser Furutaka, 3 (*Supplement, January 7th*, 1927)
Japanese Mine-laying Submarine, 3 (*Supplement, January 7th*, 1927)
Johnson and Phillips, Ltd., Large Electric Armouring Machine, 552, 560
Jones, Burton and Co., Ltd., Crank Pin Turning and Grinding Machine 110
Jones, George, Ltd., Simple Form of Winder, 92

K

KEADBY, Railway Drawbridge at, 7 (*Supplement, January 7th*, 1927)
Kemnal, Sir James (Portrait), 154
Kershaw, John B. C., World's Future Supplies of Liquid Fuels, 244, 261, 292, 316, 344
King George V., High-pressure Geared Turbine Clyde Steamer, 22 (*Supplement, January 7th*, 1927)
Kitson Clark, Lieut.-Colonel E., Internal Combustion Locomotives, 410, 415, 416, 445, 446, 447
Kitson and Co., Ltd., Kitson-Meyer Locomotive for Girardot Railway, Colombia, 360 (*Two-page Supplement, April 1st*, 1927)
Krupp, Fried., 50-Cycle Single-phase Locomotive, 43, 44
Kuhne, Captain C. H., Development of Mechanical Vehicles for Load-carrying Duty in the Army, 306, 332

L

LANGERBRUGGE Power Station, Turbine for, 95, 96

Lea Marshes Viaduct, 7 (*Supplement, January 7th*, 1927)
Lea, Professor F. C., and Mr. F. Heywood, Failure of Some Steel Wires Under Repeated Torsional Stresses, &c., 487
Leeds Forge Company, Ltd., Pullman Cars for the Continent, 136
Leipzig Fair, 263, 296, 320
"Little-Jack" Engineering Company, Ltd., Chain Pulling Jack, 694
Liverpool, Gladstone Dock Extensions, 372, 373, 384
Liverpool Refrigeration Company, Ltd., Refrigerating Machinery Equipment for the Almeda, 378, 379, 380
Ljungstrom Turbine Locomotive, Beyer, Peacock and Co., Ltd., 3 (*Supplement, January 7th*, 1927)
Llandaff Castle, Union Castle Liner, 22
London, Midland and Scottish Railway, Mixed Traffic Engine, 4 (*Supplement, January 7th*, 1927)
London and North-Eastern Railway, New Standard 0–6–0 Goods Engine, 5; Reid-MacLeod Steam Turbine Engine, 4, 6; Dynamometer Records of Train with Engine Fitted with Booster, 5, 6
Lorraine Wood Carboniser, 488, 489; Giorla Automatic Carboniser, 488, 490

M

MARCHANT Brothers, Ltd., Five-roller Mill, Chain Driving Gear, 438, 439; Paint Mixer, 464; Paint Strainer, 464, 465
Marconi Company's Photo-radiogram Transmitter and Photo-radiogram Receiver, 25, 26
Marconi Type R.g.12 "Press" Wireless Receiver, 634
Marshall, Sons and Co., Oil Engines and Governor Gear, B.I.F. Supplement, ii
Massey, B. and S., Ltd., "Clear Space" Pneumatic Power Hammer, 666
Mawdsley's Ltd., Binary Electric Welder, 238,
Mayhew, Ramsay and Co., Ltd., Coal Pulverising Machine, 249
Mellanby, Professor A. L., and Professor William Kerr, Use and Economy of High-pressure Steam Plants, 94, 107, 126, 166; (Erratum), 146; (Letter), 298
Mepstead and Co., Rotary Pump, 440
Merryweather "Fire Suds" Foam Producer, 612
Merryweather and Sons, Ltd., Turbine Pump Motor Fire Engine, 638
Mersey Tunnel Works, Submersible Pumps for, Drysdale and Co., Ltd., 586
Metropolitan-Vickers Electrical Company, A.C. Starting Panel, Arc Welding Equipment, 236; Gate End Starting Box (Coal-cutter Protection), 236
Metropolitan - Vickers Electrical Company, Equipment of Enghaveplads Automatic Sub-station at Copenhagen, 584
Metropolitan - Vickers Electrical Company, Large Single-phase Transformers, 135
Metropolitan-Vickers Electrical Company, Voltage Regulating Equipment for Transmisson Scheme of Newcastle-upon-Tyne Electric Supply Company, 556
Midland Railway of Western Australia, Eight-coupled Locomotive, Kitson and Co., Ltd., 6, 7
Midland Saw and Tool Company, Ltd., Universal Wood-working Machine, 264
Midworth Distant Repeater, Evershed and Vignoles, Ltd., 13
Millars' Machinery Company, Ltd., Road Metal Plant and Material at Brighton, 504
Morris Motors, Ltd., and Wm. Asquith, Ltd., Rotary Milling Machine for Motor Car Engine Works, 352, 356

N

NATIONAL Gas Engine Company, Ltd., 31 B.H.P. Vertical Gas Engine, 217
Newcastle-upon-Tyne Transmission Scheme, 556
Niclausse Boiler for Heating Electric Railway Trains, 134

O

OERLIKON Company, Loading Reactances for Large Generators, 694
Oerlikon Company, Switchgear Works, 404, 414
Oscilloscope Company's Oscilloscope, Gear-box and Cabinets, 72, 73
"Oaiso" and its Modifications for Use as a Phonoscope, Westinghouse Electric and Manufacturing Company of America, 135
Otranto, Orient Liner Steamship, Vickers Ltd., 22 (*Supplement, January 7th*, 1927)

P

PARIS–ORLEANS Railway, Steam Boiler Wagon, 134
Park Royal Engineering Company, Three-phase Oil Switch and Switchgear, 238, 239
Parker, Frederick, Ltd., Stone-crushing and Screening Plant, 549
Parsons, C. A., and Co., Ltd., High-pressure Alternator Windings, 43
Parsons, C. A., and Co., Ltd., 20,000-kW Turbo-alternator at the Schiedam Power Station at Rotterdam, 512, 524, 540 (*Two-page Supplement, May 13th*, 1927)
Parsons, C. A., and Co., Ltd., 12,000-kW Turbo-alternator, Cast Iron Casing for Turbo Air Compressor, Testing and Balancing House and Vacuum Drying Oven at Heaton Works, 654, 655
Parsons, Sir Charles A., Erosion of the Tubes of Surface Condensers, 387, 390, 391
Paterson Engineering Company, Chloronome, 218
Pearn, Frank, and Co., Ltd., Water Lifter, B.I.F. Supplement, vii
Pels, Henry, Open-ended Shearing Machine for Reinforcing Rods, 280
"Penzold" Type and "Volta" Type Electric Boilers, 278
Physical and Optical Societies' Exhibition, 12, 40, 71—*for* Exhibits, *see* Subjects Index, Scientific Instruments
Piccadilly-circus, Railway and Urban Improvements at, 458, 492, 493
P.I.V. Gear Syndicate, Ltd., Infinitely Variable Gear-boxes, B.I.F. Supplement, viii
Plenty-Still Oil Engine, 10, 11
Pneulec, Ltd., Sand Mixer, 266
Poplar Electric Generating Station, Turbo-generator, Pulverised Coal Plant, &c., 466, 470
Potter, R. B., Pulverised Fuel, 362
Poultney, E. C., Tests of a 2–8–4 Type Locomotive, 620
Princes Bridge, Melbourne, Welded Repairs to, 419
Pulsometer Engineering Company, Ltd., Deep Well Turbine Pump, 222

Q

QUEEN Mary Reservoir Conduit, Reinforcement and Collapsible "Blawform" Centering, 51

R

RADIO Communication Company, 1½-kW Continuous-wave Transmitter, 40, 41
Rapid Magnetting Company, Ltd., Bi-polar Lifting Magnet, B.I.F. Supplement, v, vi
Record Electrical Company, Ltd., Bridge Ohmmeter, 41
Reid-Macleod Turbine Locomotive, North British Locomotive Company, Ltd., 4, 6, 118, 130; (Letter), 181
Reyrolle, A., and Co., 400-Ampère Switch, 236, 237
Reyrolle, A., and Co., Ltd., Testing Transformer, and Control Gallery, Extra-high Pressure Test Room and Testing Laboratory at Hebburn Works, 654, 655, 656
Rhodesian Railway Locomotive with Lentz Valves, North British Locomotive Company, Ltd., 6 (*Supplement, January 7th*, 1927)
Richardsons, Westgarth Double-acting Engine, 8, 10
Robertson, W. H. A., and Co., Ltd., Geared Coilers, 93, 123, 124
Robinson, T., and Son, Ltd., Two-spindle Dimension Saw Bench, B.I.F. Supplement, v
Rowland, B. R., and Co., Ltd., Electrically Driven Double Dry-grinding Machines, 667
Rugby, Transatlantic Wireless Telephony Transmitter at, 26 (*Supplement, January 7th*, 1927)

S

ST. OLAVES—*see* Beccles
Schering Galvanometer, Cambridge Instrument Company, Ltd., 13
Schiess-Defries, Horizontal Boring Machine, for Turbine Cylinders, 297, 630, 635
Scunthorpe Gasworks, Lymn Static Gas Cooler and Cleaner, Ammonia Absorber, 477
Seacombe Ferry, Floating Roadway, 8, 38 (*Supplement, January 7th*, 1927)
Seguin, Marc, and Facsimile Sketches, 1827–8, J. G. H. Warren, 679
Shaw's Water Company's Works, Centenary, 688
Short Brothers All-Metal "Calcutta" Flying Boat, "Mussel" All-Metal Seaplane, Duralumin Propeller with Detachable Blades, 20 (*Supplement, January 7th*, 1927)
Siemens-Benson Critical Pressure Boiler, 690
Siemens Brothers and Co., Anglo-French Submarine Telephone Cable, 336
Silver Line Motor Cargo Ship Silverash, 9, 11 (*Supplement, January 7th*, 1927)
Simon, Henry, Ltd., Pneumatic Coal and Ash-conveying Plant, 160, 163–6
Smith, Sidney, and Blyth, Single-roll Paint Finishing Mill, 464
Soag Machine Tools, Ltd., New Sheet Edge Grinding Machine, 692
Soho - square Automatic Sub - station and Rotaries, Metropolitan - Vickers Electrical Company, 25 (*Supplement, January 7th*, 1927)
Somerset Quarry, Resuscitating a, 549
South America, Quarrying Operations in, R. D. Forrester, 594
South Australian Water Supplies, 596
Southern Railway, Express Passenger Engine, Lord Nelson, 3 (*Supplement, January 7th*, 1927)
Spencer (Melksham), Ltd., Digyloader Machine, 393
Stirk, John, and Sons, Ltd., "Hiloplane" Planing Machine, 190, 191
Stokes, Sir Wilfrid (Portrait), 153
Stourport Electric Power Station, 626, 627, 663
Sulzer Brothers, Uniflow Marine Engine with Oil-operated Valve Gear, 676
Sulzer Ten-cylinder Engine for the Christiaan Huygens, 11, 12
Supermarine Aviation Works, Ltd., "Southampton" Flying Boat, 19 (*Supplement, January 7th*, 1927)
Swedish Railway Memorial Stone, 277
Swift, George, and Sons, Ltd., Locomotive Connecting-rod Drilling Machine, 106, 107

T

TANGYES, Ltd., Experimental Hydraulic Press, 217
Taylor and Challen, Ltd., Flat-edge Trimming Machine, Press with Pneumatic Die Cushion, Taylor and Challen, Ltd., B.I.F. Supplement, v
Taylor, Godfrod Midgley (Portrait), 661
Telford, Bucket Dredger, Lobnitz and Co., Ltd., 23
Thornton and Cleveleys' Electricity Scheme, 608
Thyssen and Co., Manufacture of High-pressure Boiler Drums, 246
Torrance and Sons, Paint-mixing Mills, Triple-roller Mill, &c., 388, 389, 418, 464; Finishing Mill, 464; Gyrator Disc Mill, 519
Torrington Coiler for Rolling Mill, 123, 124, 125
Trafford Park Power Station, Coal and Ash-handling Plant, Henry Simon, Ltd., 160, 163–6
Treforest Power Station, Extensions to, 500
Tring Ford Pumping Station, Old Beam Engine at, 449—*see also* Letters to the Editor, Beam Engine

London and North-Eastern Railway, 5
Booster Addition Proved of Great Value, 5, 6
Lentz Valve Gear Adopted, 5
New Standard Goods Engine, Extended Use of, 5

ANNUAL ARTICLES (*continued*):

LOCOMOTIVES IN 1926 (*continued*):
Southern Railway, 4
Lord Nelson, 3, 4 (*Supplement, January 7th*, 1927)
Locomotive Industry, 6
Armstrong, Sir W. G., Whitworth and Co., Ltd., Buenos Aires Great Southern Railway, Three-cylinder Oil Fuel Engines, &c., 7
Beyer, Peacock Locomotives, Additional, Garratt Engine for Rhodesia, Central Argentine Railway Eight-coupled Cross Compound Engine, 6, 7
Kitson and Co., Ltd., Midland Railway of Western Australia, Locomotives, 6, 7
North British Locomotive Company, Ltd., Rhodesian Railway Locomotive with Lentz Valves, 6 (*Supplement, January 7th*, 1927)
Vulcan Foundry, Ltd., Buenos Aires Great Southern Railway Six-coupled Three-cylinder Engine, &c., 7
Light Locomotives, 7
Fowler, John, and Co. (Leeds), Ltd., Narrow-gauge Locomotive for 60 cm. Railway for Agricultural Use, 7
Peckett and Sons, Ltd., Special Light Engines for Quarry Use, 7

MOTOR VESSELS AND MARINE OIL ENGINES IN 1926, 8 (*Supplement, January 7th*, 1927)
Double-acting Engines, 8
Richardsons, Westgarth and Co., Ltd., 8, 10
Elder Dempster Motor Liners Accra and Apapa, with Twin-screw Double-acting Engines, Harland and Wolff, Ltd., 8, 9
Opposed-piston Engines, 11
Doxford Four-cylinder Opposed-piston Airless Injection Oil Engine, 10, 11
Plenty-Still Oil Engine, 10, 11
Progress in Europe and America, 11
Rotor Ship Barbara with Two Wesser-M.A.N. Engines, 11, 12
Silver Line Motor Cargo Ship Silverash with Opposed-piston Engine, 10, 11 (*Supplement, January 7th*, 1927)
Single-acting Four-cycle Engines, 8
Dolores de Urquiza, A. and J. Inglis, Ltd., 9 (*Supplement, January 7th*, 1927)
Single-acting Two-cycle Engines, 9
Some Large Motor Passenger Liners, Union Castle Liner Carnarvon Castle, Harland and Wolff, 8 (*Supplement, January 7th*, 1927)
Smaller Marine Motors, 11
Some New Directions of Development, 11
Ten-cylinder Sulzer Engine for the Christiaan Huygens, 11, 12

NAVAL CONSTRUCTION IN 1926, 2 (*Supplement, January 7th*, 1927)
British Empire, 2
France, 3
French Cruiser Duguay-Trouin, 3 (*Supplement, January 7th*, 1927)
Italy, 3
Japan, 3
Japanese Cruiser Furutaka, 3
Japanese Minelaying Submarine, 3 (*Supplement, January 7th*, 1927)

ANNUAL ARTICLES (*continued*):

NAVAL CONSTRUCTION IN 1926 (*continued*):
United States, 2
Minor Navies, 3

RAILWAYS IN 1926, 42
Great Western, 42
London, Midland and Scottish, 42
London and North-Eastern, Drawbridge at Keadby, 42 (*Supplement, January 7th*, 1927)
Metropolitan, 43
Southern, 42
Underground, 43

SANITARY ENGINEERING IN 1926, 55
General, 55
Bradford, 55
Leeds, 55
Leicester, 55
London Main Drainage, 55
Manchester, 55
Main Drainage, 55
Outfall Works, 55
Portobello (Edinburgh), 55
West Kent Main Sewerage Board, 55
Works in Progress or in Contemplation, 55
France, 55
Other Works Abroad, 56

STEAMSHIPS AND STEAM MARINE ENGINEERING IN 1926, 22 (*Supplement, January 7th*, 1927)
Higher Steam Pressures and Temperatures, 22
High-pressure Geared Turbine Clyde Steamer King George V., 22 (*Supplement, January 7th*, 1927)
Some Notable Ships of the Year, 22
Blue Star Liner Almeda, Cammell Laird and Co., Ltd., 22 (*Supplement, January 7th*, 1927)
Cable-laying Steamer Dominia, Swan, Hunter and Wigham Richardson, Ltd., 22
Orient Liner, 20,000-Ton Otranto, Vickers Ltd., 22 (*Supplement, January 7th*, 1927)
Union-Castle Liner Llandaff Castle, Workman, Clark and Co., Ltd., 22
Repairs and Reconditioning, 22
Clan Macnaughten Improvised Stern Frame, 22
High Elastic Limit Steels for Shipbuilding 23
Improved Marine Engine Efficiency, 23
Bauer-Wach Turbine-Reciprocating Engine, 24
Large Liners Launched and Built Abroad, 23
Salvage Operations and Shipbreaking, 23
Some Dredgers of 1926, 23
Drag and Suction Dredger Vizagapatam, Wm. Simons and Co., Ltd., 23
L.N.E.R. Bucket Dredger Telford, Lobnitz and Co., Ltd., 23
Conclusion, 24

WATER SUPPLY IN 1926, 24 (*Supplement, January 7th*, 1927)
General, 24
Aberdeen Water Supply, Old and New Reservoirs at Invercannie, 24 (*Supplement, January 7th*, 1927)
Birmingham, 51
Cardiff, 51
Llwynon Reservoir, 52
Roughing Filters, 52
Taff Fawr Pipe Line, 52
Wenallt Reservoir, 52
Durham County Water Board, 52
Glasgow, 53
Liverpool, Vyrnwy Supply, 24
Aber Tunnel, 24
Vyrnwy Aqueduct, 24
Londonderry, 52
Manchester, 51
Haweswater Scheme, 51
Heaton Park Reservoir, 51
Thirlmere, 51
Thirlmere Aqueduct, 51
Mechanical Filtration Plants, 53
Bradford, 53
Exeter, 53
Mid-Sussex Joint Water Board, 53
Metropolitan Water Board, 51
Supply from the Queen Mary Reservoir, 51
Walton-on-Thames Filtration Plant, 24 (*Supplement, January 7th*, 1927)
Works for the Improvement of Supply North of the Thames, 51
Works for the Improvement of Supply South of the Thames, 51
Works at Hampton, 51
Nottingham, 52
Bore-holes at Burton Joyce, 52
Colwick Hill Reservoir, 52
Eastwood Filtration Plant, 52
Plymouth, 52
Preston, 52
Taf Fechan, 53
Wakefield, 52
Bombay, 53
France, 53
Singapore, Water Supply from Johore, 53
South Australia, 53
Other Works Abroad, 53
Irrigation, 54

ARMOURING Machine—*see* Electrical Matters

ASSOCIATIONS, INSTITUTIONS & SOCIETIES

Association, Diesel Engine Users':
Consumers' Oil Tests, Arthur F. Evans, 665
Further Developments in Mechanical Injection Oil Engines, Oswald Wans 504
High Revolution Oil Engines, P. A. Holliday, 298

Association of Engineers, Manchester:
Annual Dinner, 71
Internal Combustion Locomotives, G. E. Windeler, 354
Junior Technical School and its Relation to Engineering, S. Howden, 125
Modern Developments in Steam Pressures, W. Baylis, 280
Recent Developments in Machine Tools, G. E. Bailey and Thomas Smith, 235

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):

Association, Incorporated Municipal Electrical:
Annual Convention at Buxton, 607, 622
Annual General Meeting, 624
Dinner, 624
Electrified Homes of Great Britain and Ireland with Special Reference to the Heating Question, H. H. Berry, 624
Methods and Capital Costs of Distribution Over an Extensive Area, W. C. Boxon, 607
Presidential Address, R. W. L. Phillips, 607
Recent Developments in Power Plant Design and their Effects on the Economy of Generation, T. Roles, 622

Institute, Iron and Steel:
Annual Meeting, 502, 513, 541
Annual Report, 513
Annual Dinner, 516
AC_1 Range in Special Steels, Professor J. H. Andrew and H. A. Dickie, 543
Drawing Steel Wire, E. A. Atkins, 541, 557
Experimental Inquiry into the Interactions of Gases and Ore in the Blast-furnace, Professor W. A. Bone and Others, 514, 530
Four Other Papers Taken as Read, 544
Heat-resisting Steels, Dr. W. H. Hatfield, 558
Influence of Annealing Temperatures on the Properties of Mild Steel Sheets, Professor C. A. Edwards and Mr. J. C. Jones, 543
Low-carbon Alloys of Iron and Manganese, Sir Robert Hadfield, 515, 516
Metal Manganese and its Properties, Sir Robert Hadfield, 515
Metallurgical Industry, The Heavy, of the East of France, M. J. Seigle, 514
Presidential Address, F. W. Harbord, 502, 514
Properties of Some Nickel-chromium-molybdenum Steels, Professor Andrew and Others, 544
Some Notes on Cold-rolled Strip, Dr. T. Swinden and Mr. G. R. Bolsover, 543
The Alloys of Iron Research, Dr. Rosenhain and Others, 516
Theory of the Growth of Cast Iron Repeatedly Heated, Dr. C. Benedicks and M. H. Loquist, 543

Institute of Marine Engineers:
Recovery and Utilisation of Heat from Exhaust Gases of Internal Combustion Engines, Thomas Clarkson, 411
Some Types of Marine Internal Combustion Engines, W. F. Rabbidge, 273

Institute of Metals:
Annual General Meeting, 184, 294, 322
Programme, 184
Autumn Meeting, 184
Application of Strain Methods to the Investigation of the Structure of Eutectic Alloys, F. Hargreaves, 322
Crystallisation of the Lead-tin Eutectic, F. Hargreaves, 322
Attack of Molten Metals on Certain Non-ferrous Metals and Alloys, Harold J. Hartley, 322
Penetration of Brass by Tin and Solder, H. J. Miller, 322
Penetration of Mild Steel by Brazing Solder and other Metals, R. Genders, 322
Brittleness in Arsenical Copper, Clement Blazey, 294
Effect of Arsenic on Copper, Effect of Arsenic and Arsenic plus Oxygen on Copper, Professor D. Hanson and Mr. C. B. Marryat, 294
Effect of Bismuth on Copper, Dr. Hanson and Miss Ford, 294
Electric Furnaces in Non-ferrous Metallurgy, D. F. Campbell, 295
Hair Springs, Manufacture and Properties of, Moore and Beckinsale, 322
Influence of Calcium on Aluminium Containing Silicon, J. D. Grogan, 323
Magnesium-rich Magnesium-copper Alloys, Max Hansen, 323
Mechanism of Inverse Segregation in Alloys, R. Genders, 323
Seventh May Lecture: Growth of Crystals in Super-saturated Liquids, Sir Henry A. Miers, 527

Institution of Chemical Engineers:
Annual Dinner, 326
Annual General Meeting, 326
Conference, 193
Programme, 193
Cross Cracking Process and Plant, F. Heron Rogers, 326
Meeting, 302, 325
Effect of Temperature on Some of the Properties of Metals, &c., Professor F. C. Lea, 325
Intensive Sulphuric Acid Manufacture: (1) Dr. H. J. Bush and Mr. Arthur Grounds, (2) W. G. Mills, 303
Lead as a Constructional Material in Chemical Engineering, S. J. Tungay, 302
Production of Dissolved Acetylene and its Application to Lead Burning, W. C. Freeman, 302
Rubber as a Constructional Material in Chemical Engineering, B. D. Porritt, 325
Some Industrial Developments and the Chemical Engineer, Sir F. Nathan, 326

Institution of Civil Engineers:
Applications of Power on Gasworks, Harold C. Smith, 137
Conversazione, 662
Three Lantern Lectures, 662
Exhibits: Yarrow-Hyde Bed, "Rubberphalte" Road Blocks, &c., 662
James Forrest Lecture, Some Recent Services of Metallurgy to Engineering, Professor H. C. N. Carpenter, 490, 520
October Examinations, 1926, Pass List, 113
April Examinations, 1927, Pass List, Interim, 668
Timber Viaduct Over the Tunuyan River, T. C. S. Haslam, 602

MANCHESTER AND DISTRICT ASSOCIATION:
Sixth Annual Dinner, 181

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):

Institution of Electrical Engineers:
Alternating-current Measuring Instruments, Recent Advances in, Lieut.-Colonel K. Edgcumbe and Mr. F. E. J. Ockenden, 208
Annual Dinner, 71, 193
Kelvin Lecture, High-frequency Currents, Professor E. W. Marchant, 461, 472
Problems of Public Lighting by Electricity, Lieut.-Commander Haydn T. Harrison, 297
Stability of Large Power Systems, F. H. Clough, 221
Summer Meeting at North-Eastern Centre, 654, 680, 686; Programme, 354
Visits to Heaton Works (C. A. Parsons and Co., Ltd.) and to Hebburn Works (A. Reyrolle and Co., Ltd.), 654
Visits to Works of Clarke, Chapman and Co., Ltd., Works of Consett Iron Company, and North Tees Electric Power Station, 680, 686
What is Electricity? Abstract of Faraday Lecture, Professor W. M. Thornton, 331

WIRELESS SECTION:
Battery Eliminators, Philip R. Coursey and H. Andrews, 412

Institution of Engineers and Shipbuilders in Scotland:
Joint Meeting with North-East Coast Institution, 611, 693
Programme, 611
Historical References to the Progress in Use of High-pressure Steam, James Mollison, 693
Machinery Installation of the Grosser Kurfürst, John S. Brown, 276
Various Papers, Dinner, Visits, 693

Institution, Junior, of Engineers:
Electrical Osmosis, E. Ambrose, 412
Torsional Vibration, Investigation of, J. Calderwood, 336

Institution of Mechanical Engineers:
Annual General Meeting, 206
Report, 206
Conversazione, 208
Development of Mechanical Vehicles for Load-carrying Duty in the Army, Captain C. H. Kuhne, 291, 306, 332
Failure of Some Steel Wires Under Repeated Torsional Stresses, &c., Professor F. C. Lea and Mr. F. Heywood, 487; (Letter), 522
Internal Combustion Locomotives, Lieut.-Colonel E. Kitson Clark, 410, 415, 416, 445
Joint Meeting with Chemical Engineering Group, Lubrication, Dr. W. R. Ormandy, 358, 361, 393
Second Joint Meeting, Lubricating Oils—Laboratory in Relation to Practical Results, A. G. Marshall and C. H. Barton, 376
Summer Meeting, Birmingham, 240
Provisional Programme, 240
Use and Economy of High-pressure Steam Plants, Professor A. L. Mellanby and Professor William Kerr, 94, 107, 126, 166, 207; (Erratum), 146

NORTH-WESTERN BRANCH:
Annual General Meeting, 109
Joint Meeting, Discussion, of Professors Mellanby and Kerr's Paper, 207
Manchester Meeting, 208
Use and Economy of High-pressure Steam Plants, 207, 208
Meeting in Manchester, Internal Combustion Locomotives, Lieut.-Colonel Kitson Clark, 444
Small Turbine Units for Industrial Purposes, G. Arrowsmith, 109
Joint Meeting, Lubrication, Dr. W. R. Ormandy, 377
Mechanical Vehicles, Development of, for Load-carrying Duty in the Army, Captain C. H. Kuhne, 330
Recent Developments in Grinding Machines and Processes, H. H. Axbridge, 276

Institution of Mining Engineers:
Eighty-sixth General Meeting, Programme, 638

Institution of Municipal and County Engineers:
Annual General Meeting and Conference, Programme, 531

Institution of Naval Architects:
Annual Dinner, 388
Annual General Meeting, 387, 405, 434
Report and Elections, 387
Design and Construction of High-speed Motor Boats, David Nicolson, 409
Effect of Wind on Power and Speed, H. J. R. Biles, 435, 439
Erosion of the Tubes of Surface Condensers, Sir Charles Parsons, 387, 390, 405
Notes on the Design of Coasters, J. Douglas Calder, 408
Oil Engine Energy Diagram and the Marine Oil Engine Trials, Professor W. E. Dalby, 406, 420, 421
Programme of Meetings, 336
Propulsion of Ships Under Different Weather Conditions, J. L. Kent, 434
Sailing Vessels Fitted with Auxiliary Motors, Future of, Captain Chr. Blom, 408
Ship Resistance Similarity, Dr. E. V. Telfer, 436
Ship Wave Resistance, W. C. S. Wigley, 436
Summer Meeting in Cambridge, Programme, 336

Institution, North-East Coast, of Engineers and Shipbuilders:
Economy of Tank Testing of Ship Forms and Research in Ship Propulsion, G. S. Baker, 125
Joint Meeting—*see* Institution of Engineers and Shipbuilders in Scotland
Progress in Economy of Turbine Machinery on Land and Sea, Sir C. A. Parsons and Others, 69
Ship Loading and Unloading Facilities, R. I. Dodsworth, 249

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):

Institution of Structural Engineers:
Some Modern Views on the Fatigue of Metals, H. J. Gough, 474

Institution of Water Engineers:
Summer General Meeting, Programme and List of Papers, 450
Theory and Practice (from Presidential Address of Dr. Herbert Lapworth), 691

Society, Ceramic:
Spring Meeting in Czechoslovakia, 437

Society of Chemical Industry:
Midland Section, Joint Meeting, 84
Measurement of Temperature in Technical Practice, Professor J. W. Hinchley, 84
Thermo-electric and Resistance Pyrometry in Industry, J. A. Hall, 84
Chemical Engineering Group, Joint Meeting with the Institution of Mechanical Engineers, 358, 361, 393

Society, Faraday:
Meeting for Presentation of Second Report to Atmospheric Corrosion Research Committee, by Dr. W. H. J. Vernon, 374
Theory of Strong Electrolytes, Programme of Papers and General Discussion at University Museum, Oxford, 392

Society, Liverpool Engineering:
Annual Dinner, 155

Society, Newcomen:
Meeting, 219
British Railways of 1825 as Seen by Marc Seguin, Ferdinand Achard and Laurent Seguin, 219
First British Locomotives of the St. Etienne-Lyon Railway, M. Achard, 219
Summer Meeting, 576

Society, Royal:
Conversazione: Ultra-violet Radiation, Applications of and Apparatus for Generation of; Specimens of Pure Metals; Specimens Illustrating Metallography of Solid Mercury; Magnetometer; Model of Rotating Shaft; New Form of Thermostat; Selényi's Method of Observing the "Clean-up" in a Vacuum Lamp, &c., 522

Societies, Physical and Optical:
Exhibition, 12, 42, 72—For Details *see* Separate Heading, "Physical and Optical Exhibits"

Aircraft Apprentices, Vacancies, 137
Aircraft Building in Spain, 657
Air Transport Between Tasmania and Australian Mainland, Company's Equipment, 551

AERONAUTICS (*continued*):
Royal Aero Club Sending Racing Seaplanes to Compete in Italian Waters, 241
AMERICAN Engineering Colleges and Engineering Research, 495
Ammonia, Synthetic, Plant of Lazote Inc., Projected Considerable Enlargement, 101
Ammonia, Synthetic Production of, in Various Countries, Comparison of Statistics, 101
Ammonium Compounds Accidental Explosion, Investigation into Fundamental Conditions Causing Such to Arise, 101
Andalusit, Mineral for Production of Heat-resisting Refractories, 327
Antwerp Port Equipment Greatly Increased, 495
Antwerp, Tenders for Three New Graving Docks, Proposed, 355
Arc Welding, Best Papers on, Money Given for Awards, 441
Argentina's Projected Outlay on New Port of Buenos Aires and other Works, 299
Artificial Silk not to be Manufactured in Japan, 129
Asbestos Mining and Kuruman Natives, 185

ASSOCIATIONS, INSTITUTIONS & SOCIETIES:
ASSOCIATION OF CONSULTING ENGINEERS: Annual Dinner, 225
ASSOCIATION OF DIESEL ENGINE USERS: February Meeting, Growth of the Association, 197
ASSOCIATION OF ENGINEERS, BELFAST: Latest Two-cycle Double-acting Oil Engine, J. Burdon, 370
ASSOCIATION OF SUPERVISING ELECTRICAL ENGINEERS: W. E. Highfield Shield, Competition Awards, 535
INSTITUTE OF CHEMISTRY: Borough Council's Demand to Inspect Private Laboratory Illegal, 15; Forty-ninth Annual General Meeting, Supply of Chemists Exceeding Demand, 299

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):
INSTITUTE, IRON AND STEEL: Annual General Meeting, 140, 428; Autumn Meeting to be Held at Glasgow, 311; Invitation to Visit Spain in 1928, 522; Annual Dinner, 140; Carnegie Fund Grants, 140; Programme of Proceedings, 428; Bessemer Gold Medal Awards, 311
INSTITUTE OF METALS: Annual Dinner, 283; Annual General Meeting in London and Autumn Meeting in Derby, Date Fixtures, 45; "Trade Alloys," Compilation of Full List of, 365
INSTITUTE, ROYAL, OF BRITISH ARCHITECTS: Royal Gold Medal Award, 453
INSTITUTION OF CHEMICAL ENGINEERS: Examinations for Associate Membership, 225

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):

INSTITUTION OF CIVIL ENGINEERS:
Annual Dinner, 370
Annual General Meeting, Awards for Papers, 517
Election of Officers and Council, 559
Heat Engine Trials Committee, Meeting, 611

INSTITUTION OF ELECTRICAL ENGINEERS:
A.M.I.E.E. Examination, 32
Award for Papers, 535
Electro-pneumatic Lamp, German, Very Old, 299
Faraday Medal, Sixth Annual Award, 116
I.E.E. Regulations for the Electrical Equipment of Buildings, 607
Null Methods of Measuring Ratio and Phase Displacement of Two Alternating Voltages, B. C. Churcher, 469
Summer Meeting at Newcastle-on-Tyne, 481
Wireless Section Committee, 1927–28, Nominations to the Committee, 586
Wireless Works Laboratory, P. K. Turner, 629

INSTITUTION OF ENGINEERS-IN-CHARGE:
Twenty-seventh Annual Dinner, 397

INSTITUTION OF ENGINEERS AND SHIPBUILDERS IN SCOTLAND:
Joint Summer Meeting in Glasgow, 370

INSTITUTION OF HEATING AND VENTILATING ENGINEERS:
Summer Meetings at Bournemouth, 641

INSTITUTION, JUNIOR, OF ENGINEERS:
Annual Dinner, 481
Case Hardening, Percy J. Haler, 44
Iron Foundry Cupola, Efficiency of, Mr. Wolstenholme, 299
J.I.E. "Old Brigade" Meeting, 283
Scientific Apparatus Exhibition, 213
Shock Absorber Units, Design and Construction, C. D. Holland, 469
Unusual Gathering, 200

INSTITUTION OF MECHANICAL ENGINEERS:
North-Western Branch:
Machine Tools for Wheel and Axle Production, E. W. Tipple, 166

INSTITUTION OF MINING ENGINEERS:
Summer Meeting at Newcastle, 228, 697

INSTITUTION OF MINING AND METALLURGY:
Annual Dinner, 222
Annual General Meeting, 222
Awards for Papers, &c., 361

INSTITUTION OF MUNICIPAL AND COUNTY ENGINEERS: YORKSHIRE DISTRICT:
Competition and Prizes Offered, 240

INSTITUTION OF NAVAL ARCHITECTS:
Annual General Meeting, 140
Annual Dinner, 140

INSTITUTION, NORTH-EAST COAST, OF ENGINEERS AND SHIPBUILDERS:
Joint Summer Meeting in Glasgow, 370

INSTITUTION OF PUBLIC LIGHTING ENGINEERS:
Conference to be Held at Brighton, 370

INSTITUTION OF RAILWAY SIGNAL ENGINEERS:
Annual Meeting, Elections and Report, 168
Signalling System, New, at Charing Cross, Cannon-street and London Bridge, W. J. Thorowgood, 577

INSTITUTION, ROYAL:
Annual Meeting, 507
General Meetings and Elections, 174, 535, 671
Reports and Elections, 507

INSTITUTION OF STRUCTURAL ENGINEERS:
Annual Dinner, 559
Brenforce Travelling Scholarship, 311
Examinations for Graduateship and Associate Membership, 674
Scholarship and Medals Awards for Competitive Design, 684

SOCIETY OF CHEMICAL INDUSTRY:
Phenol-Aldehyde Resin, Product Possibilities and Difficulties, 327

SOCIETY OF ENGINEERS:
Premiums for Technical Papers, 684

SOCIETY, ILLUMINATING ENGINEERING:
Novel Form of Discussion, 327

SOCIETY, ROYAL AERONAUTICAL:
Alteration of Rule for Chairman's Term of Office; Re-election of Colonel the Master of Sempill, 547

SOCIETY, ROYAL, OF ARTS:
Competition of Industrial Designs, 1927, 463

Passenger Brake Vans, New Type, 240
Railwaymen's Investments in Railway Stock, 629
Rates Increase to be Imposed Cautiously, 355
Road, Motor and Railway Working, Appeal to the Government as to Adjustment of Expenses, 276
Seventy-five New Coaches for Service in London Area, 495
Sidings, Increased, for Handling Coal Traffic, 75
Suggestions Made by Staff, Bureau Started at Euston, 413
Water Troughs Laid Down in Scotland for Long Non-stop Runs, 15, 159; Change of Plans Projected, 551; Misconception and Explanation, 45

London and North-Eastern Railway:
Bridge Collapse Interferes with Traffic, 299
Expenditure Charged to Capital, Varying Practice of Different Railways, 269
Foreign Coal Contracts as Provision Against Possible Railway Stoppage, 355
Future of British Railways, Sir Ralph Wedgwood, 441
Great Eastern Railway's Goods Traffic, 495
Hull Roads, Level Crossings Over, Cost of Suggested Abolition, 577
King's Cross to Newcastle at 1.15 a.m., 299
Lincoln, Level Crossing, Questions in House of Commons, 383
Locomotive, Carriage and Wagon Works All on Full Time, 364
Locomotive Coaling Plant, New Mechanical, Its Cost, 327
Marshalling Yard Enlargement at Whitemoor, 129; Cost of Improvements, 327
Naworth Disaster, Recommendations to be Adopted, 299
Passenger Vehicles, Order for Additional Construction, 441
Potters Bar Complaint of Unpunctuality and its Result, 269
Report for 1926, Variation in Certificates, 269
Signalling System, Special Type, to be Introduced on L. and N.E. Railway, 213
Timing of Summer Trains as in Former Years, 657
Traffic Control Office at King's Cross, 551
Trains No Longer Running Between Marylebone and Watford, Metropolitan to Take Over Service, 129
Two Locomotive Items of Interest, 413
Walton-on-the-Naze, Proposed Diversion to Avoid Erosion, 413

Mersey Railway Company Statistics for 1926, 250

Metropolitan Railway:
Additional Expenditure of Capital on Rolling Stock, 213
Housing Scheme at Becontree, 185
Metropolitan Railway to Supply Additional Service from Watford to Replace L. and N.E.R., 129
Neasden Power-house Improved Equipment, 213
Reduced Dividend, 159
Revenue from Letting Premises on Railway Stations, 355

Ministry of Transport:
Annual Railway Returns, 75
Inquiries into Serious Accidents, Statistics of, 448
Minister of Transport Congratulated by his Labour Predecessor, 551
New Standard Charges, Date for Operation to Begin, 551
Parliamentary Secretary to the Ministry, No Re-appointment to be Made, 213
Railway Statistics for October, 1926, 45
Railway Statistics for November, 185
Railway Statistics for December, 299
Railway Statistics for January, 1927, 441
Railway Statistics for February, 1927, 551
Railway Statistics for March, 1927, 685
Suggested Inquiry into Railway Organisation Declined, 269

Model Railway Club Exhibition, 469
Moscow's Growth, Scheme for Construction of Metropolitan Railway, 185
Natal Main Line Railway Electrification and Increased Capacity of Line, 603

National Union of Railwaymen:
Levy of Threepence a Week to Replace Depletion of Funds, 45

National Wages Board, A Spirit of Forgiveness Both Ways, 45
New Year Honours, Solitary Railwayman, 15
Oil-burning Locomotives of the Southern Pacific Railway, Fuel Consumption, 185
Passenger Duty Question, 495
Privately Owned Wagon Question, Appointment of Standing Committee, 216
Punjab Railways, Two New Sections, 629
Rail Failures, Extraordinary Number of, on American Railroad, 523
Railroad Sleepers Made from Used Rails, 469
Railway Across Lake Titicaca (Bolivia) to Puno (Peru), Construction Begun, 498
Railway Benevolent Institution Dinner, Mr. Bromley's Speech, 577
Railway Construction in Kirin Province, Chinese and Japanese Organising Engineering Works to Secure Contracts, 577
Railway Material Exports Statistics, 45, 101, 185, 299, 383, 551, 657
Railwaymen as Presidents of Two Societies, 577
Railway Rates, Increased, 75
Railway Rates Increase, Rail and Road Transport Question, Suggestion, 185

Railway Rates Tribunal:
Railway Sleepers Made Out of Old Flat-bottomed Rails, 551
Reversal of Tribunal's Judgment by Court of Appeal, 241
Standard Charges Judgment, 45

RAILWAYS AND TRAMWAYS (*continued*):
Record Upward Career of Railway Engineer, 159
Rhodesian Railways, Northern and Southern, Reorganisation, 500
Rome and Bari, Projected New Railway Between, 185
Sao Paulo Tramway, Light and Power Company, 185
Sloane-square Station Modernisation, 129
South African Railways Report, 129

Southern Railway:
Brake, Westinghouse, Conversion to the Vacuum, on All Sections, 355
Brighton Station to be Enlarged, 495
Coal Carrying Rate and Closing of Colliery, Favourable Result Hoped for, 327, 657
Dover, Big Programme in Progress, 577
Dover Priory Station Reconstruction, Removal of Locomotive Depôt and Suggested Marine Walk at Dover, 129
Further Electrification Details, 269
"Gladstone," Old Engine, to Go to Museum, 551
Oil Fuel Too Costly for Locomotives, 355
1000 Passengers Per Minute Detrain in Three Hours Daily, 437
Railwaymen's Investments in Railway Stock, 629
Southern Railway New Line, 273
Victoria Boat Trains Improved Running, 299
Widening of Four Bridges Over Roads at Peckham, Parliamentary Bill, 299
Widening of Line Near Beckenham and Reconstruction of Bridge, 603
Wimbledon and Sutton Intended Railway, Time Extension for Land Purchase, 327

Spanish Government Concession for New Railway, 685
Stationery Office Preliminary Railway Returns for 1926, 383
Survey by Bolivian and Peruvian Governments with View to Construction of Railway at Lofty Elevation, 249
Swiss Federal Railways, Electrification Progress, 665
Sydney, Progress of Central Station and City Railway, 45
Texas, 75-Mile Gap in Incompleted Railway to be Built, 523
Thorne Colliery, Withdrawal of Bill for Private Railway, 577
Ticket "Census" on the Underground, Explanation of its Cause, 213
Timiskaming and Northern Ontario Railway, Extension, 413
Traffic Returns for First Quarter of 1927, Figures Affected by Date of Good Friday, 413
Tramcar Equipment and Modern Speed Demand, 185
Tramway Fatal Derailment, Report and Recommendations, 45
Turkestan–Siberian Railway to be Laid, 181
Turkish Government's Projected Railway Schemes, 15
Twin-screw Steamers for Heysham–Belfast Service, 308, 355

Underground Electric Railways Company:
London's Increased Population and Relative Increase in Rail and Road Travellers, 441
Loud-speaking Announcers of Stations in Trains Proposed, Unpopular Proposal, 441
New Morning Train, Edgware to Charing Cross, 694
Pooling Agreement Between Underground Railway, London General Omnibus Company, and London County Council for Tramways, 657
Underground Company Accepts Record Number of Suggestions Sent in by Staff, 129

Unfair Road Motor Competition, Deputation from Railways and Trades Unions to Chancellor of Exchequer, 355
United States Transportation Act, 1920, Points of Difference from British Act, 629
Unpunctuality of Business Trains, Possible Explanation, 129
Victorian Government Railways, All-steel Restaurant Car, 657
Victorian Government Railways, Workshops, Clock Dial to Record Accidents, 377
Victorian Government's Choice of Local in Preference to English Firm's Tender, 269
Weekly Traffic Returns Compared with 1925 as Well as with Coal Strike Period, 551
Welland Railway, Old Line in Canada, Ceases Operation, Service Taken Over by Electric Lines, 551
Welsh Highland Railway, Receiver Appointed, 272; Railway to Continue Working, 383
Western Canada, Great Activity in Railway Construction Predicted, 15
Wireless Receiving Apparatus in Trains, 495
Woolwich, Cost of Locomotives and Parts Provided at, 299

Rangoon, Improvement of Channel below, 355
Rangoon University, Presentation by Burmah Company for Establishment of College of Mining and Engineering, 657
Reaping Machine Invention Centenary, 657
Reclamation of Large Swamp Area Along the Kootenay River, British Columbia, 603
Reclamation Schemes in the Forth Estuary, Good Progress of, 577
Record in Long Service, Employees of J. and E. Hall, Ltd., 113
Refrigerating Plant, New, at Buenos Aires One of the Largest in the World, 45
Refrigeration, Development of New Form of, 269
Refrigerator, Household, New Swedish Type, 657
Reinforced Concrete Bridges—*see* Bridges
Reinforced Concrete, Mild *versus* High-tensile Steel in, 566
Research and the Metal Industries Exhibition, 339
Research Scholarships in Technology, 510
Reservoir's Plight—*see* Hume Reservoir
Reservoir Production Feat in Oregon, 523

Reykiavik, Iceland, Scheme for Heating the Whole Town by Underground Hot Springs, 551
Rhodesia Broken Hill Mine, Large Amount of Vanadium Minerals; 603
Rio de Janeiro, State Concession for Port Works at Bay of Angra dos Reis, 655
Road-covering Substance, A New, Invented in Sweden by Mr. John Behmer, 523
Road Drills, Search for Less Noisy Type, 110
Road Motor Vehicles Statistics for 1926, 389
Road Watering in Sweden, Use of Sulphite Lye, 469
Roadway Over Quebec Bridge Projected, 657
Rolled Wire Rods, Home Production Reduced while Imported Rods Increase, 653
Rolling Mill, New Type, Carnegie Steel Company, 413
Romance of a Century, 559
Royal Agricultural Society's Show, 222
Royal Scholarships and Studentships in Science, 222
Royal Scottish Museum, Edinburgh, Annual Report, 589
Rubber Bearings Valuable where Exposed to Grit, 551
Rubber, Electro-deposition of, Difficulties, 159
Rubber in Industrial Occupations, 657
Rubber-lined Pipes, Astonishing Durability of, in Comparison with Lap-welded Mild Steel, 45
Rubber, Use of, for Wet and Dry Grinding, 185
Rubber Used for Tests on Skew Arches, 269
Russian Mica Industry Development, 327
Russian Nikitinski Mercury Mines to be Restarted, 45

S

SAFEGUARDING of Industries Act, Additional Articles Liable to Duty, 37
Saint Nazaire, Improvement of Port, 441
Salt River Power Station, South Africa, Further Extension of, 355
San Pablo Bay, California, Proposed Bridge Across, 413
Santo Domingo Port, Structural Improvements, 523
Scholarship, Brenforce Travelling, Competition, 400
Scholarships, British Empire, Engineering, at Loughborough College, Awards, 592
Scholarships, Charles R. E. Bell Fund, 397
Scholarships, Research, in Technology, 510
Science, Applied, Graduates of Toronto Finding Posts in United States, 603
Sea Wall, The Throndon, New Zealand, will be Largest in that Country, 45
Seville, Port to be Made Accessible to Large Vessels, 299
Shale Oil, Value of, and also Complexity of its Composition, 75

SHIPS AND SHIPPING MATTERS:

Agamemnon, Battleship, to be Broken Up and Replaced as Target Ship by the Centurion, 241
Atlantic Liner and the Port of London, 697
Belfast Boats Transferred to Heysham from Fleetwood Route, 308, 355
Blue Star Liner Andalucia, 253
Blue Star Liner Arandora, Trials of, 629
Canada Steamship Lines, Ltd., to Erect New Docks at Toronto, 241
Cross-Channel Triple-screw Steamer to Run Between Vancouver and Nanaimo, 263
Deep-water Berths Projected at Durban, 129
Destroyers for Roumania, Design Order Given to J. I. Thornycroft and Co., Ltd., 140
Dublin Bay, Measured Mile for Speed Trials of Sea-going Vessels, 355
Ferry Boat, Oil-engined, for Conveyance of Motor Cars, 185
Hamburg-American Motor Passenger Liner Ordered, 577
H.M.S. Berwick, Light Cruiser, Completed, 469
H.M.S. Nelson, Britain's Most Powerful Battleship, Completed, 441

SHIPS AND SHIPPING MATTERS (*continued*):

Merchant Steamers at South Kensington Science Museum, 456
North German Lloyd Vessels to Call at Galway, 75
Rapid Work in Cargo Discharge, 136
Refrigerator Motor Ship, A Large, 370
Repairing Accommodation, Additional for, Trawlers at the Port of Fleetwood, 657
Secondary Batteries in Warships, 469
Sherard Osborn, Ex-Cable Ship, Fitted Out for Oil Extraction from Non-edible Fish, 159
Shipbuilding Industry Materials, Board of Trade Deputation, 154
Shipbuilding Industry Revival Reported from Moscow, 413
Shipbuilding in Russia, 374
Shipyard Reopening at Stockton, 213
Tonnage with Cargo and in Ballast at Ports of United Kingdom and to Other Countries, Statistics Show Reduction in Both for 1926, 299
Tonnage Under Construction for Great Britain and Ireland, 685
Tonnage of Vessels Entered into British India and Cleared Outwards with Cargoes, Analysis, 355
Trawler, First Steel Motor Twin-screw, in Shanghai, Launch of, 75
World Shipping, Improvement in Basic Conditions, 327
SHOWS—*see* Exhibitions
Skew Arches, Interesting Test Arrangement for Experiments on, Professor G. E. Beggs, 269
Smokeless Fuel Plant at a Gasworks, Results Exceed Expectations, 269
Sodium Carbonate Solutions, Adverse Effects on Aluminium, 551
Solway Viaduct Closed as Dangerous, 363
Soviet Spinning Factory, First Opened in Russia, 159
Spanish Plans for Compulsory Expropriation for Hydro-electric Development, also for Construction of Road Exclusively for Motor Cars, 45
Speed Indicator, Vest Pocket, Brown and Sharpe Manufacturing Company, 286
Spirit Distilleries in Great Britain, Census, 299
Spodumene Lithium Ore from Canada for German Experimental Use, 383
Steam Pipe, Flexible Metallic, Failure of, on an Engine Makers' Test Bed, 523
Steam Road Vehicles and their Coal Consumption, 577
Steam Turbo-generators in Russia, Attempt to Extend Construction, 495
Steel—*see* Iron
Stone Preservation, 566, 635
Storing Drawings for Reference, 566
Story of the Electric Detonator, 551
Suction Gas Power Plant Superseded by Steam Engine, 75
Sulphite Cellulose Process, Memory of its Discoverer to be Marked by Fund for Research, 355
Sun Life Assurance Company of Canada Likely to Become the Largest Structure in the British Empire, 657
Sydney Harbour Bridge Bearings, Special Train Necessary for Transport of, 75

T

TECHNICAL Teachers, Annual Conference, 342
Telegraph Offices Along Chinese Railway in Manchuria and Competition of Long-distance Telephones, 15
Telephone Cable to Belgium, Group of Lines Opened, 495
Telephone Kiosks, Large Number Erected and Increasing, 657
Telephone System's Growth and Flourishing Condition Notwithstanding Coal Stoppage and General Strike in 1926, 299
Telephone Talk Between Great Britain and Certain American States at £5 4s. per Minute, 213
Television—*see* Wireless
Tenders of Widely Varying Amounts, 327
Testing Machine, Largest and Most Powerful in Canada, 185
Tientsin and Tungchow, Proposal to Reopen Canal Between, 75
Tin-bearing Land in Queensland, Company Formed to Work it, 101
Tin Discovery at Largs, Ayrshire, 269
Tin Mine, Tambo, Northern Transvaal, Development of, 441
Tin Ore Deposit in the Northern Transvaal, Great Extent of, 355
Tin-plate Company Starting New Mills, 159
Tire Puncture on Four and Six-wheelers, F. A. Boyce, 159
Tires, Manufacture of Various Types, Pirelli, Ltd., 685
Toronto Bricklayers' Increased Wage, 101
Toronto's Harbour Project, Necessary Expenditure, 269
Transatlantic Conversation with Possibility of Seeing as Well as Hearing the Speaker, 15
Tristan da Cunha Receives First Steamer Visit for Twelve Months, 213
Tunnel Aqueduct, A Second, to Carry Water from the Catskills to New York, 413
Turbine, Fourneyron, Celebration of the Invention, 629
Turbine Pumps for Shanghai, Holden and Brooke, Ltd., 566
Tyneside Big Advertising Campaign, 495
Tyneside and Unemployment, 495

V

VACUUM Cups to Replace Slings, 269
Vacuum Tube, Reputed World's Largest, Now in Use in Radio Station, 551
Vanadium Properties, Opinions Differ, 413
Venezuelan Government Scheme for Widening Bay and Port Reconstruction, 75
Vickers Group Amateur Operatic Society, 222
Vizagapatam Harbour to Become Transhipment Port for Manganese Ore, 383

W

WADE'S Tables, 113
War Office Large Contract for Hacksaw Blades, 602
Water Powers of Canada, Nelson River Capacity, 577

WATER SUPPLY:

Australian Water Catchment Neglect, Proposal to Remove Control from Government Departments, 603
Brixton and Newton Ferrers, Scheme for Water Supply, 125
Chungking, China, Projected Supply, 629
Gatineau River, Quebec, Large Storage Reservoir, 685
Geelong, Victoria, District, Projected Increase of Stocks of Water, 101
Groendal Water Scheme of Uitenhage Town Council, South Africa, 547
Metropolitan Water Board Electrically Driven Centrifugal Pumps, 685
Redruth Town's Water Supply Augmentation, 495
Reservoir, Record, for Melbourne and Metropolitan Board of Works, 441
South Australian Water Supplies, Hume Reservoir Threatened, 603
Sydney Water, Sewerage and Drainage Board Contract for New Pipe Line, 441
Sydney Water Supply Augmentation by Cordeaux Dam, 355
Water Conservation, Proposal to Dam the Lachlan River, New South Wales, 355
Water and Sewerage System of San José, Costa Rica, Commission to Consider Extension, 75
Waterworks Pumping Plant, Centrifugal Type, Mather and Platt, Ltd., 228
World's Water Reservoirs' Capacities, 159
WATER-TUBE Boiler Tube Failure, 523
Water Wheels in Power Plants in the United States, Capacity of, 577
Waterworks, Old Buildings, at Slough to be Converted into Factory, 129
Winnington Chemical Works, Reconstruction Contemplated by Brunner, Mond and Co., 355

WIRELESS TELEGRAPHY & TELEPHONY:

Amazon River, Broadcasting Station to be Erected on, 327
Atmospherics, Range of Interference with Reception, 577
Birmingham Proposes By-laws for Control of Wireless Aerials, 629
British Broadcasting Corporation's Proposed Change, 657
Broadcasting Station, Large, at Zeesen, 685
Calcutta and Bombay Stations of Indian Broadcasting Company to Begin Work in August, 551
Characteristics of Wireless Waves Ten Miles Aloft, Test by French Scientists, 441
European Broadcasting Stations, Minor Adjustments in Wave Lengths Projected, 551
European Wireless Engineers' Conference, 213
Federal Radio Commission Orders to Stations, 629
High-power Broadcast Station in Germany Audible All Over Europe, 441
Hull Trawlers Proceeding to Greenland Equipped with Wireless Telephone Apparatus, 685
Loud Speakers, Lecture and Demonstration, J. E. Roe, 577
Nanking, Wireless Station at Pehchikoh, 75
Portable Radio Direction Finder, F. W. Dunmore, 233
Rumanian Company to Monopolise Broadcasting Manufacture of Radio Apparatus, &c., 299
Ship's Wireless Equipment, Simple Spark and Continuous Wave Telegraphy, 299
Sophia, Tenders for New Wireless Telegraphic and Telephonic Station from British, French and German Firms, 303
South Seas Wireless Stations Broadcast Copra Quotations, 213
Telephone Receiving Station, Transatlantic, in Scotland, 3-Mile Long Aerials, 441
Television Between London and Glasgow, 629
Television Between New York and Washington, Successful Demonstration Over 250 Miles, 441
Transatlantic Wireless Telephony Receiving Station at Kemback, Near Cupar, 327
Wireless Communication Between Lighthouses on the Clyde, 657
Wireless Problems Discussion at Colonial Conference in London, 657

WOOD Preservers' Association, American, Incising or Treating Timber, Tests on, 413
Wood Protection by Aluminium Leaf Coating, 185
Workington Dock Opening, 629
World Motor Transport Congress, 327

Y

YEAST-making Industry, New, Starting in Western Canada, 577

Z

ZEEBRUGGE Mole, Project to Replace, by One Built on Arches, 491
Zinc Reduction Plants, Production of Slab Zinc in U.S.A., 441

PRINTED FOR THE PROPRIETORS BY GEORGE REVEIRS, LIMITED, AT GREYSTOKE PLACE, FETTER-LANE, LONDON, AND PUBLISHED BY ARTHUR RONALD VAUGHAN AT THE ENGINEER OFFICE, 33, NORFOLK STREET, STRAND, IN THE PARISH OF ST. CLEMENT DANES, IN THE COUNTY OF MIDDLESEX.—FRIDAY, JULY 22, 1927.
